PROFESSIONAL EXPERIENCE

Browserstack

Mumbai, India

Product Manager

Jul 2016 - Present

BrowserStack is a SaaS product used by over 40,000 companies, across 135 countries, for browser and mobile app testing

Lead a team of 8 engineers and UX designers to manage browserstack's enterprise product, pricing, and billing

Product Development

Built the enterprise product, targeting enterprise accounts with annual revenue potential exceeding \$150,000

- Core features included single sign-on, usage analytics, user management, local testing and IP whitelisting
- Introduced modular pricing for bundling core features with complementary enterprise add-ons
- Within 6 months of launch, the enterprise product added \$3.6 Million to the annual recurring revenue (ARR)

Product Pricing

Implemented pricing and plans for 4 core products; conceptualized and executed strategy and communication to migrate 54% of all customers (22,000) across 3 pricing versions to the new, simplified pricing

- Minimized customer churn by mapping complex legacy plans onto equivalent plans on the new pricing
- Delivered a seamless migration experience; only 7 of 16,900 migrated customers reported issues
- Increased new product sales by 5% (adding \$340,000 ARR) and reduced time-to-launch by 50%

Information Architecture

Currently driving complete architectural overhaul of the web platform. Built for one product, the existing architecture became unwieldy after numerous makeshift additions

- Defined rules for categorization, labeling and navigation to organize information into intuitive hierarchies
- Conducted usability testing on high fidelity prototypes to assess flexibility of the new navigation system
- Restructured URLs to facilitate cross-product discovery, switching between domains and SEO

Housing.com

Mumbai, India

Product Manager

May 2015 - Feb 2016

Housing is India's leading Real Estate search portal, across 40 cities, mapping 650,000+ houses. Valued at \$400 Million

Led a team of 8 engineers and UX designers to build housing.com's property discovery experience

Recommendation Engine

Conceptualized and delivered the recommendation engine which included back-end suggestion algorithms and front-end smart cards to guide users to their intended search, and expose contextually useful but hidden features

- Analyzed empirical data to identify reasons for low conversion: 'poor filter usage' and 'missing search criteria'
- Defined card types, trigger logic and action for each scenario to help users adjust their search and find houses
- Reduced dead-end searches by 22% in less than 4 months

User Communication

Directed the voice of the product across all user touch points, including in-app messages, notifications, and emails

- Revised visual design and copy of property alert emailers, which increased user engagement by 14%
- Seamlessly phased out a primary business vertical with over 250,000 active users

Kaaryah.com

Delhi NCR, India

UI/UX Designer

Oct 2012 - Feb 2014

Kaaryah is an e-commerce brand of western, non-casual wear targeting the Indian working women

Conducted UX research to refine website design, and enhance brand story. Develop marketing collateral for social media which drove 28% of online sales

Shahi Exports

Delhi NCR, India

Designer

Jun 2010 - Jul 2012

Shahi is India's largest premium garment and home furnishings exporter, with an annual turnover of \$750 Million

Launched and expanded the outerwear category to a \$5 Million business. Worked with geographically distributed teams and developed a strong sourcing network in Hong Kong

EDUCATION

Indian School of Business (ISB)

Master of Business Administration (MBA)

Hyderabad, India

Apr 2014 - Apr 2015

Recipient of the Diversity Scholarship, 2014. Winner of ISB’s Campus Entrepreneurship Challenge

National Institute of Fashion Technology (NIFT)

Bachelor of Design (B.Des)

Delhi, India

Aug 2006 - May 2010

Graduated in the top 1% of a batch of 400

- National Finalist, Sustainable Design Challenge, ITC-Wills Debut, 2010
- Awarded Best concept for Fabric waste-minimization approaches to apparel production, NIFT 2009
- Collaborated with India’s Ministry of Textiles to resuscitate the art of block printing by developing a contemporary product range retailed in stores across India

CONSULTING PROJECTS
